Reasons for allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record does not teach the combination of the amended limitations in the independent claims 1, 13, and 18.

Call (US 10/759,601) and Pic et al. (US 6988093) do not explicitly teach "passing an intact XML document to the IMS hierarchical database and storing it intact...initialize a first database node of the hierarchical database identified by the database node identifier; sequentially writing raw data from the beginning of the XML document into the first database node; and selectively identifying a break point in the XML document, in response to the first database node filling with raw data,...sequentially writing raw data from the break point of the XML document into the second database node"

Dependent claims 3, 5-11, 15-17 and 20 incorporate the listed limitations by reference and contain limitations that further distinguish over the art of record.

For these reasons, claims 3, 5-11, 15-17 and 20 are considered allowable over the art of record.
